Consortia and EU projects

Policymakers at S|B events:

■ **EC Commissioners:**
Jyrki Katainen, Carlos Moedas, Tibor Navracsics, Johannes Hahn

■ **EC Directors-General:**
Daniel Calleja Crespo, Lowri Evans, Xavier Prats Monné, Dominique Ristori, Robert-Jan Smits, Vladimír Šucha, Jos Delbeke

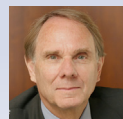

■ **Members of the European Parliament:**

Jerzy Buzek, Christian Ehler, Eva Kaili, Ana Gomes, Paul Rübig, Kay Swinburne

Testimonials

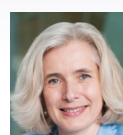

Jerzy Buzek, Member and former President of the European Parliament; Chair of the ITRE Committee
"Science|Business brings a modern approach towards innovation."

Yvon Berland, President, Université Aix-Marseille
"The Network (...) is the only place where universities and industries, at that level, can collaborate on both research and innovation. (...) No other network allows us to conduct substantive long-term projects and react very quickly to news."

Naledi Pandor, Minister of Science and Technology, South Africa
"We value our strategic cooperation with Science|Business as it permits the deepening and expansion of especially our European ties."

Corinne Le Goff, Senior Vice President, Amgen Europe
"We have joined the S|B Healthy Measures multi-stakeholder communications platform as we believe that sustainable healthcare systems across Europe will need strong collaboration among trusted partners and key stakeholders."

The Science|Business Network

Europe's leading innovation network – bringing together industry, research and policy

The Science|Business Network helps shape the debate for Europe's research and innovation policy through original thought leadership research and executive meetings.

Annual membership benefits

Standard membership fees

Engagement

- Speaking opportunities at Science|Business Network events
- Participation in consultation groups on timely innovation topics (sometimes at additional cost)

Intelligence

- Latest insights into FP9 and other EU initiatives in R&I
- New approaches in EU innovation policy

Access

- Participation for two member representatives in all S|B Network events
- Free access to Science|Business annual conferences (e.g. FP9 conference)
- Free access to all S|B online content, archives and publications

Visibility

- Publication of relevant news and announcements from the member
- 4 weeks of online banner advertising per year
- Dedicated partner page on sciencebusiness.net
- Member's name / logo featured on all Network communications

Healthy measures

Making sense of patient data – to upgrade Europe's health systems

■ In November 2016, Science|Business launched a new platform for policy discussions across the EU – outside of Brussels, that is – to improve healthcare systems through better data management and focus on patient outcomes. The group met twice in 2016: On November 8th in Paris (hosted by the Université Pierre et Marie Curie and EIT Health) and on December 16th in London (hosted by the University of Warwick Medical School). Three more events were organised in 2017: On April 5th in Lyon (hosted by BIOVISION), on May 22-23rd in Helsinki (hosted by the Aalto University and Tekes), on October 16th in Tallinn (hosted by the Estonian Presidency to the EU). The 2018 calendar will take us to Vienna, Barcelona and Amsterdam. The conferences are supported by a dedicated news service, with a monthly newsletter, at www.sciencebusiness.net/health.

■ A series of new EU initiatives could transform the business of science. Chief among these is the proposed European Open Science Cloud integrating labs across the EU. At the same time, the EU is proposing a build-up of new data infrastructure capacities, stronger international alliances, and further steps in open data access policies. Science|Business launched in April 2017 a new programme to learn about, share strategies, make recommendations and engage in policy dialogues on these topics.

**Network members may send one delegate to events organised by the groups, but participation in the Steering Committee that drives activities requires additional resources.*
