

SCIENCE|BUSINESS[®]

MEDIA KIT

REACH EUROPE'S INNOVATION COMMUNITY

- A unique audience - the most influential people in Europe's innovation community
- The leading media channel reporting on Horizon Europe
- An independent platform to air new approaches in EU and international R&I policies

WHO WE ARE

LEADING R&I POLICY COVERAGE

The Science|Business news service reaches key members of Europe's research and innovation community. We provide expert knowledge, the latest intelligence, and the inside track to research and innovation developments in Brussels and beyond. Our editors include former editors of Nature, New Scientist and The Wall Street Journal.

WHO READS SCIENCE|BUSINESS

- Senior decision makers and policy advisers across the European Commission
- Members of the European Parliament – on the industry & research, internal market, environment and other committees
- Technology and R&D executives of global companies
- Presidents of leading research and technology universities across Europe & internationally
- Key staff in national ministries and innovation agencies in Europe & internationally
- International investors
- Specialised media in Europe & internationally

TESTIMONIALS

"Science|Business brings a modern approach towards innovation."

Jerzy Buzek, Member and former President of the European Parliament; former Chair of the ITRE Committee

"Science/Business is a precious window on the European Union, as well as a source of strategic information, for Polytechnique Montréal as we develop flagship projects and international partnerships in sustainable engineering, cybersecurity, AI, and medtech."

Philippe Tanguy, President, Ecole Polytechnique de Montréal

"We value our strategic cooperation with Science|Business as it permits the deepening and expansion of especially our European ties."

Naledi Pandor, Minister of International Relations and Cooperation, South Africa

"Science|Business promotes an open dialogue among industry, research and policy communities. This network allows us to come together with others to listen, learn, and understand different perspectives, while providing a platform where we can exchange views on the constantly evolving technologies and how they should be used to benefit society."

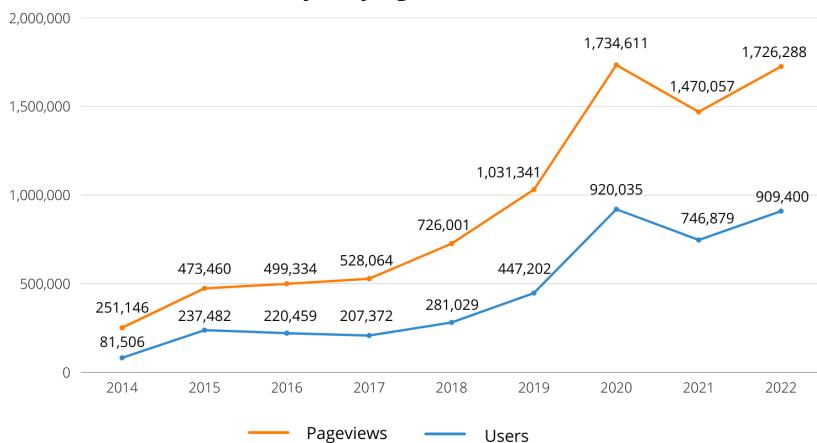

Cornelia Kutterer, Senior Director, Rule of Law & Responsible Tech, European Government Affairs, Microsoft
