Associations

Testimonials

Jerzy Buzek, Member and former President of the European Parliament; Chair of the ITRE Committee
"Science|Business brings a modern approach towards innovation."

Patrick Prendergast, Provost, Trinity College Dublin
"Trinity values the Network's ability to bring leaders in research & industry together to further innovation policy."

Naledi Pandor, Minister of Higher Education and Training, South Africa
"We value our strategic cooperation with Science|Business as it permits the deepening and expansion of especially our European ties."

Corinne Le Goff, Senior Vice President, Amgen Europe
"We have joined the S|B Healthy Measures multi-stakeholder communications platform as we believe that sustainable healthcare systems across Europe will need strong collaboration among trusted partners and key stakeholders."

Policymakers at S|B events:

■ **EC Commissioners:**
 Johannes Hahn, Jyrki Katainen, Carlos Moedas, Tibor Navracsics, Günther Oettinger

■ **EC Directors-General:**
 Daniel Calleja Crespo, Jos Delbeke, Lowri Evans, Jerzy Plewa, Xavier Prats Monné, Jean-Eric Paquet, Dominique Ristori, Robert-Jan Smits, Vladimir Šucha

■ **Members of the European Parliament:**
 Jerzy Buzek, Christian Ehler, Ana Gomes, Karin Kadenbach, Eva Kaili, Clare Moody, Godelieve Quisthoudt-Rowohl Paul Rübig, Kay Swinburne, Anneleen van Bossuyt, Lambert van Nistelrooij, Lieve Wierinck

The Science | Business Network

Europe's leading innovation network – bringing together industry, research and policy

Annual membership benefits

Engagement

- Speaking opportunities at Science|Business Network events
- Participation in focus groups on specific innovation topics (sometimes at additional cost)

Intelligence

- Latest news and insights into Horizon Europe and other EU initiatives in R&I
- New developments in EU and international innovation policy

Access

- Participation for two member representatives in all S|B Network events
- Free access to Science|Business annual conferences (e.g. framework programme conference)
- Free access to all S|B online content, archives and publications

Visibility

- Publication of relevant news and announcements from the member
- 4 weeks of online banner advertising per year
- Dedicated partner page on sciencebusiness.net
- Member's name / logo featured on all Network communications

Membership fees

12 months
€ 9 000

24 months
€ 16 000

36 months
€ 22 000

Sample focus areas*

- All Network members are invited to appoint a representative to this working group to generate input into the debate around Horizon Europe at the EU level and domestically. The group draws upon the knowledge and experience of our members, as well as intelligence gathered by Science|Business, to create highly visible briefing documents. These report aims to contribute to public knowledge about the hottest R&I policy topics currently discussed and inform policymakers during the legislative passage of Horizon Europe.

- In November 2016, Science|Business launched a new platform for policy discussions across the EU – outside of Brussels, that is – to improve healthcare systems through better data management and focus on patient outcomes. The group met twice in 2016: On November 8th in Paris (hosted by the Université Pierre et Marie Curie and EIT Health) and on December 16th in London (hosted by the University of Warwick Medical School). Three more events were organised in 2017: On April 5th in Lyon (hosted by BIOVISION), on May 22-23rd in Helsinki (hosted by the Aalto University and Tekes), on October 16th in Tallinn (hosted by the Estonian Presidency to the EU). The 2018 calendar will take us to Vienna, Barcelona and Amsterdam. The conferences are supported by a dedicated news service, with a monthly newsletter, at www.sciencebusiness.net/health.

- A series of new EU initiatives could transform the business of science. Chief among these is the proposed European Open Science Cloud integrating labs across the EU. At the same time, the EU is proposing a build-up of new data infrastructure capacities, stronger international alliances, and further steps in open data access policies. Science|Business launched in April 2017 a new programme to learn about, share strategies, make recommendations and engage in policy dialogues on these topics.

**Network members may send one delegate to events organised by the groups, but participation in the Steering Committee that drives activities requires additional resources.*
